

MOTION.

Introducing to you, a new fabric, new styles & new collection. **Motion.**

Our newest fabric, Motion gives a sculpted and ultra flattering look while wearing. It has a dry, peached hand feel while being light weight. It feels firm while wearing but don't restrict you, allowing you to have full motion.

Made from 75% Polyester / 25% Spandex.
It is the perfect blend of softness and compression that supports you in all the right places.

The sports bra's fits true to size, although if in-between sizes in bottoms we recommend sizing up.
